

ENDCAP Alignment Status

September 08, 2000

Data Analysis of (June-July-Aug) ISR test runs – DCOPS + Analog

Geometric Reconstruction from ISR setup - Endcap specific solution

Global reconstruction in COCOA in progress

September Integrated test run Setup of Integrated test with CSC at Lab 7

First level analysis completion for Sept 21 Alignment Review at CERN

Alignment.dwgs for EDR including Integration, EDR outline proposal

DCOPS final pre production engineering PNPI, sensor box, filtering

Alignment schedule, installation at CERN, DAQ model and interface to SCADA
